

Electronic Artwork Specifications

In general, customer supplied artwork in the correct format(s) takes between 1/4 and 1/2 hour to process and this cost is included in the basic artwork set up fee. In order to avoid additional charges, the supplied file(s) should be:

FILE TYPE AND SPECIFICATIONS

Vector .eps file (Adobe CS 4 compatible)

All fonts converted to outlines

All colors specified as SPOT colors (including "white" if used as a color)

NO raster or placed images should be included unless they are greyscale or bit mapped with a spot color applied. When included, they must be EMBEDDED in your artwork.

To ensure there are no problems with your file we recommend doing a test printing to ensure that your colors separate as you expect. You can generally do this by printing to a laser printer and using the preference that allows you to print separations.

FILE SIZE AND SENDING FILES

If your artwork is over 5 mb, try zipping the file before sending it to us. If it is still larger than 5 mb, email our art department art@catamountbarware.com before sending.

NOTE ABOUT GRADIENTS AND SCREENS OF A COLOR

It is important to note that artwork printed on glass uses a silk screen style of printing. When using a gradient, or "screen" of color, or "halftone" be aware that the linescreen we use is 85 lines per inch for barware, and 65 lines per inch for labware... that means fairly big dots easily visible to the eye. Avoid heavy use of gradients or screens of color unless you are comfortable with how it will look in an 85 line screen (barware) or 65 line screen (labware). If you are unsure how your artwork will look using a linescreen, we recommend purchasing a pre-production sample prior to printing your full run.

WE CAN CREATE, MODIFY, OR FIX pretty much any artwork you send to us, but it may add to the cost of your job. When you send us your artwork we will review it for printing and let you know how much additional time/cost would be required to make your artwork print ready.

If you have any questions or problems submitting artwork to us, you may contact our art department via email: art@catamountbarware.com, or call 802-442-5438 ext. 315.

PRIOR TO SUBMITTING ARTWORK YOU MUST FIRST OBTAIN A PURCHASE ORDER

To request a purchase order, call 802-442-5438 ext. 310 or email paula@catglass.com
